

jakob k. - your great imagination

pale singer

(music: jakob künzel / lyrics: nadia leonti)

pale singer
night shifter
mood swinger
looking for connection with a bird
at last he couldn't find
a thinner air to breathe
his vocals came with a squeaking chirp

late drifter
long distance
news bringer
is no longer in demand
his dreams feel real
the worst to deal
so fed up with information

pass by - fall out - shut down - cry out

high flyer
big city
born tiger
blood of the mythical ancient souls
he hung 'with loyalty'
from a blooming cherry tree
a broken samurai with suit and tie

pass by - fall out - jump down - cry out
